PRODUCTS

Circuit Breakers

- Molded Case Breakers
- Insulated Case Breakers

More Circuit Breakers

- Air Breakers
- Vacuum Breakers
- Ground and Test Devices

Low & Medium Voltage Switches

- Load Break Switches
- Bolt Pressure Switches
- Fusible & Non-Fusible Disconnect Switches
- Single or Lineups
- 240V to 38KV

Transformers

- Dry Type Transformers
- Control Power Transformers
- Control Transformers
- Potential Transformers

Switchgear & Related Components

- Low & Medium Voltage
- Medium Voltage Controllers & Fused Switches
- Relays & Metering

Low & Medium Voltage Motor Control

- Low & Medium Voltage Motor Controls & Lineups
- Starters & Contactors
- Motor Control Center Replacement
- Contact Kits

Fuses

- Low & Medium Voltage Fuses
- Specialty Fuses
- Breaker Fuses

Replacement Parts

- 3rd Party Crane Parts
- Contact Kits
- Coils
- Etc.

New • Reconditioned • 3rd Party Replacements

Offering All Major Manufacturers

SERVICES

- **Engineering:** In-house staff can review and create line drawings and schematics. Our team can also create job specific Bill of Materials needed to complete a job.
- **Quality Assurance:** 35-point quality control process performed on every product
- **Diagnostic Testing:** Primary/secondary injection, high-pot testing, single/three phase metering, vacuum integrity, insulation resistance, contact resistance, AC dielectric testing, and many more
- **Apparatus Life Extension:** Breaker overhauls and rebuilds, retrofits, relay/metering upgrades, and custom switchgear replacement, fabrication, and engineering
- **Custom Switchgear Rebuilds:** On-site metal fabrication shop
- **Swap-Out Programs:** Upon receiving the temporary circuit breaker(s), the customer can "swap-out" existing breakers and send them in for reconditioning, testing, PM, or Retrofit. Once the work is completed, Voyten will return the customers' material fully reconditioned, tested, and ready for service
- **Repairs:** Free evaluation of repair on all electrical products
- **Rental Services:** All in-house electrical and testing equipment is available for rental.
- **Specialty Services:** Engineer custom switchgear buss work and new replacement door manufacturing

ABOUT US

Voyten Electric & Electronics is a commercial electrical wholesaler and an industry leader specializing in the engineering, sales, service and repair of current and obsolete electrical products. Our main office, located on 430 acres of land in beautiful Northwestern PA, houses 180,000 square feet of warehouse space & contains one of the largest inventories of electrical products in the United States! We also have a secondary office with even more warehouse space and a sales team that works nonstop to make sure our customers are satisfied.

We strive to find solutions for any need our customers may have. Our massive, diversified inventory offers a plethora of product lines that cover a wide range of electrical components.

WHY CHOOSE VOYTEN?

- Voyten offers a 1-year warranty on all products. (Repair/Replace/Refund)
- We offer customers a library of electric parts & equipment manuals from the 1940's to present day.
- Voyten is always prepared to do emergency jobs.
 - 24/7/365 – Always on call
- Our technicians have been with us for as long as 38 years!
- Voyten's sales team is not only friendly, but also ready to troubleshoot any issues that arise.
- Most items are in stock and ready to ship.
